## TURTLE-TIPS

Don't throw garbage on the beach, turtles can mistake garbage for food, they can drown in plastic or get hurt, causing their death.

Reduce the light you see on the beach, this can cause you to get lost walking towards the city, instead of towards the horizon.

Keep your distance from nesting sites, turtles need quiet spaces for nesting.

Leave with us your positive footprint on the life of sea turtles. How? You can organize a cleanup day with your friends and go to the nearest beach to pick up the trash.

Try use ecofriendly products in your home, your water can reach the water of the coasts, affecting plants and animal.

Share these tips with your friends, so that together we can rescue more sea turtles.
