PHOTOGRAPHY RESIDENT

## DIEGO ORTIZ

FROM OCT 28TH TO OCT 30TH, 2024

I'm a Mexican photographer and creative with over 10 years of experience. My work is all about capturing the present moment and blending reality with something a bit more ethereal. I believe life is fleeting, and that's what makes it so special- I aim to freeze those moments in time.

Photography, for me, isn't just about taking pictures; it's about telling stories and creating something that resonates on a deeper level. I've worked with various brands and artists, always pushing myself to find that perfect balance between the real and the surreal.
